

December 17, 2019

Dear National Commission on Military,

I am writing to you to express that the DRAFT should not be re-instated.

Our country should not be sending more of our men and women into combat ~~and~~ ^{to} get injured or killed.

We have learned since the Viet Nam War that these wars have been based on false information and we don't "WIN" them.

What our country needs are more men and women to be diplomats, they can help us to not be in wars.

Sincerely,
Verna Silvia
